### DETAILED ACTION

1. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The step of inserting (cl 1, ln 8) is confusing because it is unclear whether or not it is related to the step of covering. If they are related, it should be clearly and positively set forth, e.g. inserting the phrase --, while the release film is held between the lower mold and the middle mold-- after "said middle mold" (cl 1, ln 8).

Correction is required.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by Miyajima (USPN 6080354). Miyajima teaches the claimed mold as evidenced by the figures. It should be noted that an apparatus claim is examined for its structure. See MPEP 2114.

4. Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by Lajza, Jr. et al (USPN 6306331). Lajza, Jr. et al teach the claimed mold as evidenced by the figures. It should be noted that an apparatus claim is examined for its structure. See MPEP 2114.

Art Unit: 1791

5. Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by McGlashen et al (USPN 4618466). McGlashen et al teaches the claimed mold as evidenced by the figures. It should be noted that an apparatus claim is examined for its structure. See MPEP 2114.

6. Applicant's arguments with respect to claims 1-2 have been considered but are moot in view of the new ground(s) of rejection.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
